MANAGEMENT DISCUSSION AND ANALYSIS

Industry Overview

Step Two Corporation Limited ('STCL') is a non-deposit taking Non-Banking Financial Company (NBFC-ND) registered with the Reserve Bank of India (RBI). It is engaged in the business of investments and lending.

The COVID-19 pandemic and lockdown

The COVID-19 pandemic is a once in a lifetime occurrence that has brought with it unimaginable suffering to people and to almost all sections of the economy. When the pandemic struck and led to nationwide lockdowns to curtail the transmission of disease, it was natural to fear that the global economy would stay in extreme stress of the kind not seen since the Great Depression and would have a long-lasting economic impact.

.To counter the crippling impact of the lockdowns on economies, the world's policymakers have resorted to fiscal and monetary measures never seen before in global economic history. It still remains to be seen if these relief measures sufficed, and whether actions taken by Governments across the globe adequately compensated for the disruptions created in the lives of people.

.Fortunately, science prevailed. Multiple vaccines were found with impressive efficacy levels in less than a year — which will probably rank as among one of the most incredible achievements in science. The announcement of successful development of vaccines seemed to lift spirits around the world. Unfortunately, the advent of winter saw several countries battle second waves of COVID-19 infections, including more virulent strains leading to partial lockdowns. The race between vaccines and variants is heating up as massive vaccination drives are underway. Much depends on blocking transmission and not just the disease.

.The only three preventives are masks, social distancing and vaccinations. However, to vaccinate even half of the world's population of 7.8 billion is going to take years. The production, storage and distribution challenges require that Governments prioritise the vaccinations in a judicious manner so as to limit the human toll.

.Fortunately for India, which is home to some of the largest vaccine makers in the world, the supply constraints should be limited and temporary. Moreover, our experience in implementing large scale vaccination programmes should help in vaccinating our vulnerable population. Even so, with many states in India witnessing a seriously full-blown second surge of COVID-19, the vaccination challenge is enormous.

.We know that India can ill afford another country-wide lockdown such as was imposed from March to June 2020. The impact on the economy and employment was severe in the first instance; and cannot be repeated yet again. The lockdown that continued throughout the first quarter of the FY2021 saw India's GDP for April-June 2020 contracting by a massive 24.4%. Even the second quarter was terrible, with GDP shrinking by 7.3% in July-September 2020. Thereafter, we have seen a rebound — thanks to the resilience of our citizens, our entrepreneurs and of our economy.

.The only grey cloud at present is the huge surge in infections that started with the second wave beginning in early March 2021. Hopefully, a serious increase in the pace of vaccinations across the country will bring this surge down; and if we keep all enterprises and workers open for business, it should not affect the economy in any significant manner.

STCL took immediate steps to manage this *force majeure* situation, some of which have been:

- Keeping employee safety as the topmost priority, and so ensuring that all employees moved

STEP TWO CORPORATION LIMITED

immediately to 'Work-from-Home' (WFH). All employees were advised to strictly follow lockdown guidelines of the Government.

- Activating the Company's business continuity plans. As a result, STCL continued operating under a WFH protocol, and
- Triggering business continuity plans — for servicing and recovery

Market Scenario

Given the impact of the pandemic, FY2021 was expected to be an extremely demanding year. The consensus was that GDP growth in FY2021 would not only be negative but also would constitute the greatest fall in growth since 1979-80. In fact, the degrowth in GDP was much larger than expected. For April-June 2020, real GDP contracted by a massive 24.4%. India had never recorded a quarter of negative growth since it began issuing such data publicly in 1996. No other large economy shrank so much during the pandemic. In the second quarter, July-September 2020, GDP again contracted by 7.3%. The consensus was that growth in the second half of the fiscal year would be far less than what was needed to erase the effect of the deep recession in the first half.

Thankfully, we began to witness early signs on resumption of economic activity in the second half of the year with several high frequency indicators suggesting that the economy was back on to positive growth. The third quarter (October-December 2020) recorded a GDP growth of 0.4%. And, as mentioned earlier, the second advance estimates of national income for FY2021 released by the CSO indicates a negative GDP growth of 8% for FY2021. Though this was bad enough, the contraction will be far less than earlier thought of — and we should see the fourth quarter (January-March 2021) showing relatively robust growth.

Various measures taken by the RBI ensured sufficient liquidity at all times during FY2021, and thus calmed sentiments in bond markets which had seen volatile conditions in March and April 2020. The RBI reduced its policy rates only once during this fiscal on 22 May 2020 by 40 basis points (bps) to 4%. As an additional measure to increase credit intermediation, the RBI increased the margin between repo and reverse repo from 25 bps to 65 bps. The central bank's unprecedented monetary easing and open market purchases kept interest rates at comfortable levels during the year despite a record growth in Government borrowings. It was only after the announcement of a growth-centric and expansionary Union Budget for 2021-22 that yields in bond markets rose on expectations of the increased borrowing programme of the Government of India.

While the RBI has maintained an accommodative stance so far, multiple factors like sticky inflation levels, elevated crude oil prices, and risks of US treasury yields will play a part in its ultra-accommodative stance and may have a consequential impact on interest rates in FY2022.

We believe that the resilience shown by the Indian economy coupled with (i) a growth-centric Union Budget and (ii) the RBI maintaining an accommodative stance to sustain growth on a durable basis, will see the Indian economy grow at a faster clip than other economies. As mentioned earlier, the only cause for concern is the resurgence of infections and partial lockdowns in some states.

Analysis of performance for the year

The detailed highlights of the performance are produced elsewhere in the Director's Report.

Fulfilment of the RBI's norms and standards

STCL fulfils norms and standards laid down by the RBI relating to the recognition and provisioning of non-performing assets, capital adequacy, statutory liquidity ratio, etc.

Development in human resources

The Company continues to lay emphasis on people, its most valuable resource. In an increasingly competitive market for human resources, it seriously focuses on attracting and retaining the right talent. It provides equal opportunity to employees to deliver results.

Conclusion

Certain statements in the Management Discussion and Analysis describing the Company's objectives, predictions may be "forward-looking statements" within the meaning of applicable laws and regulations. Actual results may vary significantly from the forward looking statements contained in this document due to various risks and uncertainties.

Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

ANNEXURE 'C' TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Step Two Corporation Ltd. (“the Company”) as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing prescribed under Section 143(10) of the Act and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”), to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

STEP TWO CORPORATION LIMITED

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note
